

LA International operates in 23 countries, and has chosen Stoke-on-Trent as its headquarters. Over 100 staff are based here, working across eight specialist operating divisions.

The company specialises in recruiting expert contract and permanent IT and engineering staff, ranging from IT programmers to project engineers. LA International's clients include IBM, Siemens, Hewlett Packard, Nokia, Eurocontrol, Belgacom, Lockheed Martin, Fujitsu and Unisys.

The company provides a wide range of recruitment services, including administering high levels of security clearance and outsourced UK and International payroll solutions serviced from their HQ in Stoke-on-Trent. The company has found much of the administration and finance processing skills and multi-lingual abilities they need in the area.

"Stoke-on-Trent is an excellent base from which to serve national and international markets. Our teams support a growing number of international clients in a number of countries including: Germany, Scandinavia, the Netherlands and as far afield as Asia Pacific regions. Being consistently amongst the best in our professional game, with an enviable reputation for project delivery, this is wholly due to recruiting and developing in-house the high quality staff we need for our business."

Paul Lukic, Chairman and CEO, LA International
